Claims 1-34 are allowed.

The following is an examiner's statement of reasons for allowance:

As noted therein, and as argued on pages 8-9, the prior art of record specifically, Ryan at least fails to teach or suggests the particles entrained in the drilling fluid to a first determined size by disintegrating the particles. Davenport at least also fails to teach an energy field operator being positioned in the wellbore.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
